Industry Leadership

Lead the direction and activities in your specific industry area, e.g. construction, V2X, Freight, etc. for all relevant Focus Areas and Pilots.

Executive Collaboration

Join Peer-to-Peer Executive Meetings with municipal leaders, state agency leaders, university leaders and commercial counterparts.

Organizational Leadership

Participate in leadership roles on committees and projects across all areas.

Strategy

Participate in shaping Metro Denver's mobility strategy by working at the City, County, and Regional level to accelerate vetting, testing, and deployment of innovative technologies and systems solutions. Work with industry and public leaders to develop Focus Area solutions that can be leveraged across the region.

Pilots

Define and implement Pilots based on prioritized Focus Areas that have local and regional government support required to implement post-pilot.

Collaboration & Events

- Attend Global, National, and Local Speaker events without having to leave the area.
- Attend Quarterly Mobility Events that bring together experts across public and private sectors in a high-energy event focused on driving understanding and action.

Information & Communications

- Receive a monthly publication that covers the status of work across Metro Denver, issues and challenges, major events, expert views on relevant topics, local constituent and company views on mobility in the region and more.
- Get access to mobility relevant data and information on the region as well as metrics on pilot and major project performance, via the Metro Denver Dashboard.
